We create one of the **largest European**
tech incubators, open it up to **founders**,
student initiatives and **project teams** and
invite external companies.

The **Collective Incubator** brings students, researchers and companies together.

The **Collective Incubator** is the central hotspot for university start-ups in Aachen.

The **Collective Incubator** unites and supports with infrastructure.

Concept | Low-threshold access to resources enables rapid development and professionalisation of new projects

Step 1
Coming up with an idea

Step 2
Finding a team and infrastructure

Step 3
Getting access to technologies and experts and a broad network

Step 4
Being part of practice-oriented, interdisciplinary teaching

Step 5
Getting to know company partners

Space | Modern premises of different types offer the starting point for building a community and for creative and efficient collaboration

17 **permanent offices** available for start-ups over a period of one year.

8 **conference rooms** for start-ups, student initiatives and projects and over 70 **flex desks**.

A fully equipped **film and podcast studio** for your own productions.

Over 1200 m² **workshop area** for metal, plastic, wood, electronics, textile and 3D printing.

An **electric transporter** for the transport of prototypes, tools and material or event organization.

Community members and teams | The Collective Incubator is available to student initiatives, start-ups and project of RWTH Aachen University and FH Aachen free of charge

164

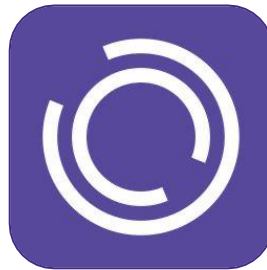

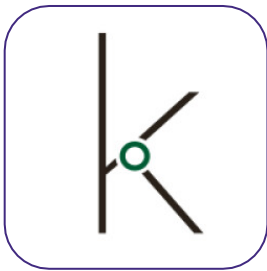

Start-ups and Spin-offs
